

# 300 MAX

## HANDHELD THERMAL INKJET PRINTER

Cortex-A9 quad  
core CPU

Direct editing,  
no need to connect  
to a computer

Support variable  
database

600DPI High  
resolution printing

Light weight

# Word Height Range

## 2-12.7mm adjustable

The maximum character of inkjet printer is 12.7mm, and the font height within this range can be realized.

# Small Size

## Be easy to carry about

Lightweight design,easy to carry,code spraying at any time

# 4.3 Inch HD capacitive touch screen

4.3inch color high-definition touch screen, important information at a glance, fingers can touch the screen directly. No stylus required, very responsive

# More language

The interface is simple to operate, suitable for customers in different countries and regions

# Product Parameter

Print Head	Thermal inkjet 2.5
CPU	Quad core 1.4GHz
Operation System	Linux
Print Distance	Best quality with 2-5mm
Interface	USB, TYPE-C
Print Resolution	600dpi Maximum
Weight	GW 0.45KG
Dimension	215*125*40mm
Battery	2600mAh @ DC16.8V
Ink Type	Water-based/42ml, Solwent/42ml
Material of Printer	ABS+PC
Print Height	2-12.7mm
Language	Chinese, English, Japanese, Turkish, Arabic, Korean, Spanish, Russia, French, Portuguese, Italian and so on
Adapter	AC input 100~240V; DC output 16.8V/2A
Ink Color	Black, White, Red, Yellow, Blue, Green, Invisible, UV
Print Content	Chinese, English, NumberS, Symbols, QR code, Bar code, Pictures, Dates, Counter
Print Media	Boards, Carton, Stone, Pipe, Cable, Metal, Plastic, Electronic, Automotive parts
Operational Environment	Temperature 0-45℃ (The best:20-30℃) Humidity 40%-60%Rh

# Product Details

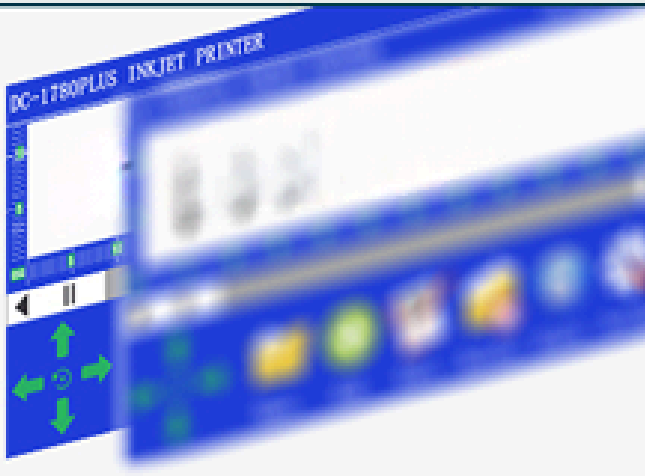

## ***NO.1*** Fully enclosed design

Body fully closed design, and the ink cartridges and interfaces are not leaked.

## Intelligent touch system ***NO.2***

New and updated inkjet engine, low cost and high quality printing performance. With HP original imported ink, suitable for all kinds of materials and industries.

## ***NO.3*** Large capacity battery

Long-lasting standby with large capacity battery. Long-term work of coding can be realized, frequent charging can be avoided.

## Capacity storage ***NO.4***

Internal mass storage, Edit the file and data on machine any time, without connecting PC

***NO.5*** Quick dry ink cartridge

After using the machine, please take out the ink cartridge from the machine and put it in the clip of the ink cartridge to avoid damaging the ink cartridge.

Coding button ***NO.6***

When the display interface setting operation is completed, please press the button when starting to print.

***NO.7*** Printer handle

The handle of the inkjet printer has a double-sided three-layer concave texture design, which is conducive to holding firmly and not easy to fall off.

## USB Driver Cable
